NARRATIVE

On Friday, May 30, 2014, Chris Hayes, an investigative reporter with Fox 2 News, contacted the Chesterfield Police Department regarding information he received concerning videos appearing on the internet that depicted male subjects using the restroom at an unknown location. The information was obtained from a "tipster" who provided screen shots from the videos which showed several men wearing what appeared to be work related uniforms. One of the men was wearing a shirt with a phone number of " " Another subject was wearing a blue t-shirt with the business name ". The videos

were reportedly posted to a website named "veryhotvideos.Offthegrid.com" and listed under the heading of "Restroom Recon 29".

Mr. Hayes began conducting an investigation in an attempt to identify the location of the hidden camera. He identified the subject wearing the M [REDACTED] shirt as:

[REDACTED] C [REDACTED]
[REDACTED]
[REDACTED]

Upon contacting C [REDACTED], he learned that within the past several weeks C [REDACTED] used a public restroom at the Mobil on the Run gas station located at 1789 Clarkson Road in Chesterfield. Mr. Hayes went to the Mobil on the Run and was able to determine that it appeared to be the same restroom based on the floor tile and layout of the restroom. He also observed a vent located directly above the toilet that was easily removed by plastic bolts on the exterior of the vent cover. Mr. Hayes determined that no camera was present at that time and later contacted this department.

On Tuesday, June 3, 2014, at 1300 hours, I met with Chris Hayes and his photographer, Dave, at the Chesterfield Police Department to discuss this case. Also present was Det. Carrie Brandt, DSN 223. Mr. Hayes reiterated the information described above and explained how he was able to determine that the location of the hidden camera was the Mobil on the Run on Clarkson Road in Chesterfield. He informed us that his "tipster" continues to provide information to him via email. In one of his latest emails, the "tipster" reported that in addition to videos under the heading of "Restroom Recon 29", a new heading titled "Glory Hole" has been added to the "veryhotvideos.Offthegrid.com" website.

Under this heading, there were videos of unknown males entering a residence and placing their penises through an opening in what appeared to be a doorway. Mr. Hayes provided me with a still shot from one of the videos showing a white male subject wearing a blue work uniform shirt bearing the insignia of [REDACTED]. Mr. Hayes stated that his "tipster" believed that the "webmaster" of the "veryhotvideos.Offthegrid.com" website is the same person that is posting videos under the headings "Restroom Recon 29" and "Glory Hole."

Mr. Hayes provided me with a DVD-R disc containing six video files and three screen shots retrieved by his photographer from the "veryhotvideos.Offthegrid.com" website. Four of the video files were from the hidden camera in the Mobil on the Run restroom. The other two were depicting the "glory hole". Mr. Hayes also forwarded emails from his "tipster". These items were seized by me and entered into evidence.

On Wednesday, June 4, 2014, I responded to [REDACTED] located at [REDACTED] where I made contact with [REDACTED]. I showed him a still photo of the male subject wearing the blue work uniform shirt bearing the insignia of the [REDACTED] at which time he identified him as [REDACTED]. He advised that [REDACTED] was not currently at work, but provided a cell phone number of [REDACTED] and also agreed to contact him and ask him to call me.

A short time later, I was contacted by telephone by [REDACTED]. I explained that I needed to speak with him in person regarding an investigation wherein I believe he may have been a victim. [REDACTED] advised that he was currently at work, but agreed to meet with me the following day.

On Thursday, June 5, 2014, I contacted [REDACTED] by telephone to arrange an interview with him. He agreed to meet with me at 1230 hours at the O'Fallon, MO Police Department. At that time, Det. Steve Queen, DSN 259, and I responded to the O'Fallon, MO Police Department where we made contact with [REDACTED] in a non-custodial interview room located off of the main lobby of the police station. [REDACTED] is further described as:

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

I explained to him the nature of this investigation, specifically that I obtained a video of him from the internet depicting him in a sexual situation. [REDACTED] provided the following information:

Since the fall of 2013, he has responded to a Craigslist posting two to three times for a "glory hole" in Wentzville. He found the listing under the "Casual Encounters" category and the sub-heading of "w4m." The first time he responded to the ad was around October of 2013 and, at the request of the "poster", he provided him with two pictures of himself which he sent via email. One picture was of his face, the second was of his genitalia. In exchange for these pictures, the "poster" sent him two pictures of a female, both of which were clothed. [REDACTED] explained that he communicated with the "poster" via email, with the "poster's" email being a generated Craigslist email address. After sending the pictures of himself to the "poster", [REDACTED] was provided with an address on Jessica Dr. in Wentzville. [REDACTED] could not recall the numerics, but stated the house was in a subdivision off of Hwy Z and was a single story ranch home with a two-car attached garage on the left side of the home.

When he arrived at the home, he entered through the unlocked front door. Immediately to the left of the front door was a doorway with a closed door and a fabric item over a hole in the door. [REDACTED] placed his penis into the hole where an unknown subject performed fellatio on him. Upon completion, he left through the front door.

Each time he responded to the Craigslist posting, he was directed to the home on Jessica Dr. [REDACTED] stated that the last time he visited the home was within the past month. The video of him in his work uniform was taken during either his second or third visit and while he was on a break from work. [REDACTED] stated that he used his cell phone to search Craigslist and to email the "poster", but he has since deleted those emails. [REDACTED] stated that he was not aware he was being video recorded while at the home on Jessica Dr. and did not give anyone permission to post videos of him on-line.

Although he was unable to recall the address of the residence, he agreed to ride with Det. Queen and me to show us where it was. [REDACTED] directed us to Jessica Dr. in Wentzville, MO and identified the home at [REDACTED] Jessica Dr. as the location where he received fellatio in response to the Craigslist ad. Parked on the street in front of the house was a blue SUV, bearing [REDACTED] [REDACTED] stated that this vehicle was usually parked at the home when he was there.

I conveyed [REDACTED] back to the O'Fallon Police Department where his car was parked. I explained the course of this investigation and the possibility of needing his cooperation for prosecution. [REDACTED] indicated that he was reluctant to pursue prosecution due to the embarrassing nature of his actions, but he understood the necessity of it. I informed him that I would keep him up to date on the progress of the case.

A computer inquiry of the license plate of the blue SUV returned not on file. A check of the St. Charles County Assessor's office website shows the property at [REDACTED] Jessica Dr. is owned by David E. Cerna. It should be noted that Cerna is employed as a police officer for the Chesterfield Police Department and I recognized the blue SUV as a vehicle owned by him.

I contacted Assistant Prosecuting Attorney Breck Burgess of the St. Charles County Prosecuting Attorney's Office, BP: (636) 949-7308, and explained the nature of this investigation to him. Based on the information developed to this point, Mr. Burgess indicated that the conduct may violate state statute related to Invasion of Privacy. I asked if his office would entertain a search warrant for the residence, to which he stated he would.

Due to the fact that the residence was located in St. Charles County, I contacted Sgt. Chris Bosley of the St. Charles County Cyber Crime Task Force who agreed to initiate an investigation, under complaint #14-2749. Det. Michael Coyne, DSN 540, was assigned as the case officer.

I completed an application for a search warrant for Cerna's residence at [REDACTED] Jessica Dr., Wentzville, MO, to seize cameras, recording devices and computer related equipment, accessories and storage devices. I responded to the St. Charles County Courts Building where I made contact with Sgt. Bosley and Assistant Prosecuting Attorney Rebecca Navarro-McKelvey, who approved the search warrant application. The search warrant was authorized by Associate Circuit Judge Elizabeth Swann.

At approximately 1930 hours, members of the St. Charles County Cyber Crimes Task Force, along with me and Chesterfield Detectives Carrie Brandt and Steve Queen executed the search warrant at Cerna's residence.

Also present were two uniformed Wentzville Officers. The scene was processed and evidence was seized by the St. Charles County Sheriff's Department Forensics Unit.

Upon arrival, Cerna was present along with his roommate,

[REDACTED]
[REDACTED]
[REDACTED]

The two were separated and Cerna was directed to a bedroom located in the front of the residence and presented with a copy of the search warrant.

During the search of the residence, investigators located several computers in a room located to the left of the front door. It was discovered that a surveillance camera was mounted on the front exterior of the residence and several webcams were located in the home. Located in the basement was a wooden "door" that was fashioned into a "glory hole".

Det. Coyle and I made contact with Cerna in the front bedroom and explained the nature of our investigation. Det. Coyle advised Cerna of his rights per the Miranda Warning which he stated he understood, waived his rights and agreed to make a statement. Cerna completed and signed a Chesterfield PD Notification and Waiver of Rights form, which was seized by Det. Coyle.

During the course of the interview, Cerna admitted to creating a "glory hole" in a doorway at his residence and posting ads on Craigslist to locate individuals willing to participate. He said he recorded the

individuals with webcams that were concealed in the home and those videos were saved to his computer.

Cerna stated in January of 2014 he purchased a domain name and created a website with the name "Offthegrid.com". He uploaded many of the "glory hole" videos to this website which were accessible to anyone accessing his website.

For more information related to Cerna's statement related to the activities occurring in his home, refer to Det. Coyle's report.

During the course of the interview, Cerna was asked about any other hidden cameras he may have placed. Cerna admitted to placing a camera in the men's restroom at Mobil on the Run on Clarkson Road in Chesterfield. He explained that several months ago, while he was using the restroom, he looked toward the ceiling and noticed a vent directly above the toilet. He realized that he could place a camera there to capture men using the toilet.

Approximately one to two months ago, he went to the restroom at the Mobil on the Run, removed the vent cover and placed a 4th generation iPod inside the vent directing the camera of the iPod downward toward the toilet. He then replaced the vent cover. He said the iPod would only remain charged for about two hours, so after that time he would return to the restroom and remove the iPod. He then uploaded the videos to his home computer. Cerna stated he placed the iPod in the vent on five separate occasions, leaving it in place for approximately two hours each time. After he would remove the iPod, he would download the videos to his home computer. The last time he placed the iPod in the vent was approximately three weeks ago.

Cerna stated that he uploaded many of the videos to his "Offthegrid.com" website under the heading of "Restroom Recon." He also noted that he created a "sub-domain" on his website with the URL being "veryhotvideos.Offthegrid.com" and videos were uploaded to this site as well. Cerna note that several days ago, he shut down the website after someone posted a comment about being able to identify someone in the video by their clothing. Cerna said this concerned him so he shut down the site. Cerna stated he also had a Tumblr.com site with a screen name of "Offthegrld" where he would upload videos and photos, but this site has also been shut down by him.

Knowing that the Mobil on the Run is frequented by Chesterfield Police Officers during the course of their patrol duties, I asked Cerna if any of the videos depicted Chesterfield Police Officers using the restroom. He stated he had no videos or images of Chesterfield Police Officers.

Cerna declined to provide a written statement and he was taken into custody by Det. Coyle for the charge of Invasion of Privacy and conveyed to the St. Charles County Detention Center pending warrant application.

██████████ refused to answer any questions and was not taken into custody at this time.

Numerous computers and storage devices were seized by the St. Charles County Cyber Crime Unit and conveyed to their offices for analysis. A preliminary analysis uncovered numerous videos similar to what was posted to Cerna's "Offthegrid.com" website. Included in these videos were videos depicting Chesterfield Police Officers, in uniform, using the restroom at the Mobil on the Run on Clarkson Road in Chesterfield. I was able to identify the officers as:

██████████
██████████
██████████
██████████
██████████
██████████
██████████
██████████

In many of videos, the officers are wearing winter coats and/or long sleeve shirts, indicating that videos were recorded during the winter months. The exact dates the videos were recorded are unknown at this time. Each of the officers were contacted and advised they were unaware they were being recorded.

The St. Charles County Cyber Crime Unit will be conducting a full analysis of the computers and the results of their analysis will be provided at a later date.

This report will be forwarded to the St. Louis County Prosecuting Attorney's Office for consideration of charges.

Any additional information will be provided via supplemental report.

NARRATIVE

In reference to Chesterfield Police Report Number 14-2867, I wish to state the following. At approximately 0400 hours, on Friday, June 6, 2014, I responded to 1789 Clarkson Road to photograph the men's restroom.

The following photographs were taken at the scene utilizing a department issued digital SLR camera. The photographs were later downloaded into the Chesterfield Police Department's Crime Scene computer file.

NARRATIVE

In reference to Chesterfield Police Report #14-2867, wherein a hidden camera was placed in the men's restroom at Mobil on the Run, 1789 Clarkson Road, I wish to report the following:

On Friday, June 6, 2014, I contacted Assistant Prosecuting Attorney Kim Kilgore of the St. Louis County Prosecuting Attorney's Office and presented her with the fact and circumstances of this case. After careful consideration, Ms. Kilgore issued one count of Invasion of Privacy in the Second Degree against David Cerna.

The Honorable Judge Goldstein of Division 12 signed the warrant and authorized a bond of \$25,000. I delivered the warrant to the St. Louis County Police Fugitive Unit.

Cerna remains in the custody at the St. Charles County Detention Center.

Nothing Further.

NARRATIVE

In reference to Chesterfield Police Report #14-2867, wherein a hidden camera was placed in the men's restroom at Mobil on the Run, 1789 Clarkson Road, I wish to report the following:

On Tuesday, June 10, 2014, I contacted Det. Larry McClain, DSN 133, of the St. Charles County Cyber Crime Task Force, who is conducting the forensic analysis of computer evidence seized from the suspect, David Cerna's, residence. During his initial examination of this evidence, Det. McClain discovered a folder on one of the hard drives that contained videos that appeared to be from the Mobil on the Run gas station in Chesterfield. Det. McClain provided me with a working copy of this folder on an external hard drive so attempts can be made to identify any potential victims. Det. McClain also provided me with three video files he found that show three different Chesterfield Police Officers changing clothes in a locker room.

Det. McClain explained that he is unable to determine, at this point, the date that the videos were created. He stated he may be able to determine a date after analyzing other evidence, but the possibility exists that the exact date(s) may never be known. He noted that each video file notes a "Date Modified", however this date is not necessarily the date the video was created or downloaded to the hard drive from the recording device.

Upon returning to the Chesterfield Police Station, I reviewed the three locker room videos noted below:

"[PRIVATE 10] 1r - [REDACTED] h[REDACTED] 2" is 1 minute and 56 seconds in length and shows PO [REDACTED] H[REDACTED], [REDACTED], changing out of his police uniform into civilian clothes. The camera appears to be concealed in a bag or similar item on the floor. There is no nudity in the video.

"[PRIVATE 12] 1r - [REDACTED] D[REDACTED]" is 2 minutes and 50 seconds in length and shows PO [REDACTED] D[REDACTED], [REDACTED], changing out of his police uniform into civilian clothes. The camera is zoomed in record his groin area, however no nudity is in the video.

"[PRIVATE 22] 1r - [REDACTED] T[REDACTED]" is 1 minute and 43 seconds in length and shows PO [REDACTED] T[REDACTED], [REDACTED]5, changing out of his police into civilian clothes. The camera records PO T[REDACTED] from a distance and captures his full body from the waist up. There is no nudity in the video.

I recognized the locker room as the locker room in the Chesterfield Police Station. All three officers were notified and made aware of the existence of the videos.

The files related to the Mobil on the Run were found in a folder titled "Mobil On-The-Run." Within that folder there were 190 video files and six still photos. The still photos appeared to be screen shots of the bathroom floor. In addition there were three (3) additional folders titled:

"Handbreak" which was empty;
"iPad Edit" containing 96 video files;
"New Folder" containing 23 video files.

In total, there were 309 video files depicting men using the restroom at the Mobil on the Run in Chesterfield. The majority of these videos show the men urinating in the toilet with their penis exposed. All of the videos are recorded by a camera located directly above the toilet.

Although there are 309 video files, many of them are duplicate files of the same person. It appears that Cerna would edit the videos and then save them under a new file name. Also, several of the video files are compilations of several men that were edited to create one extended video. No videos were observed of people that appeared to be juveniles or children.

Upon reviewing the videos, the victims listed in the original report were found in the following files:

"Mobil On-The-Run" folder:

"#001" - [REDACTED] H[REDACTED], [REDACTED] S[REDACTED]
"#003" - [REDACTED] H[REDACTED]
"#013" - [REDACTED] T[REDACTED]
"#025" - [REDACTED] T[REDACTED]

"PD-███████-███████ L███████
"PD-███████ (2)" - ████████ L███████
"PD-███████" - ████████ L███████
"PD-███████ (2)" - ████████ S███████

"PD-[REDACTED]" - [REDACTED] S [REDACTED]
"PD-[REDACTED] (2)" - [REDACTED] T [REDACTED]
"PD-[REDACTED] (3)" - [REDACTED] T [REDACTED]
"PD-[REDACTED] (4)" - [REDACTED] T [REDACTED]
"PD-[REDACTED] (5)" - [REDACTED] T [REDACTED]
"PD-[REDACTED]" - [REDACTED] T [REDACTED]
"PD-[REDACTED]" - [REDACTED] W [REDACTED]

"New Folder":

"[REDACTED]_0019" - [REDACTED] T [REDACTED]
"[REDACTED]_0020" - [REDACTED] H [REDACTED]

I was able to identify two additional victims who were exposed while using the restroom. They are:

[REDACTED] [REDACTED] T [REDACTED] - observed in "#069" in the "Mobil On-The-Run" folder;
[REDACTED] [REDACTED] D [REDACTED] - observed in "IMG_1077" and "IMG_0023", both in the "Mobil On-The-Run" folder.

These two officers were notified and stated they were unaware they were being video recorded while using the restroom. Based on information from the video, PO D [REDACTED] believes the video was recorded sometime after May 1, 2014.

Two other Chesterfield officers were observed in the restroom, however they were not exposed. These videos were in the "Mobil On-The-Run" folder. They are PO [REDACTED] J [REDACTED] ("#037", "#038", "#039", "#040") and PO [REDACTED] D [REDACTED] ("#087" and "#121").

"COMPILATION 3" shows a Chesterfield officer urinating in what appears to be a parking garage. Based on the angle of the camera, I was unable to identify the officer.

This investigation is ongoing with attempts to determine the approximate number of people recorded by Cerna and when possible, to identify those individuals.

NARRATIVE

In reference to the original report of invasion of privacy, I wish to state the following. On 06/12/2014, I responded to [REDACTED]r. in Florissant to meet up with [REDACTED] C[REDACTED]. C[REDACTED] was identified by his shirt and a tattoo on his forearm as being in a restroom video from the Mobil gas station on Clarkson Rd.

I provided C[REDACTED] a copy of a still shot of the video and he stated that was him. I asked him if he could tell me approximately when he might have used the restroom at Mobil. He stated that he arrived in town the first week of May, 2014. C[REDACTED] stated that he is not for sure what day he used the restroom in Chesterfield, but it had to have been within the last 3 weeks.

I asked C[REDACTED] if he wanted to press charges against David Cerna for invasion of privacy. He stated that he did. I obtained C[REDACTED]'s pedigree information and advised him that someone would be in touch later.

I then responded to [REDACTED] to meet up with the owner of [REDACTED]. I spoke to the owner [REDACTED] and showed him a picture of a person wearing a [REDACTED] shirt. He stated that all of his employees were there on site and he stated that none of them look like the person in the picture. I asked [REDACTED] if it could be him in the picture. He stated no and said that if I could provide him with a better picture he would take a look but until then he needed to get back to work. I asked [REDACTED] for his last name and he stated that I did not need it because he was not the person in the picture. I thanked [REDACTED] for his time and left.

This investigation is continuing.

NARRATIVE

In reference to the original case wherein subjects were video recorded using the restroom located at 1789 Clarkson Rd in Chesterfield, I would like to add the following.

After reviewing video files from the "Mobil-On-The-Run" folder found on David Cerna's computer I was able to determine that there were possibly 217 different victims who were recorded using the restroom and whose genitals were exposed. Of these subjects, I was able to positively identify two subjects:

■ ■■■■■ O ■■■■■

■
■■■■■
■■■■■
■■■■■
■■■■■
■■■■■
■■■■■
■■■■■

■■■■■ O ■■■■■ was identified due to the company logo for ■■■■■ "■■■■■" on the back of his shirt and a tattoo on his left hand. With this information I was able to contact ■■■■■ and determine the identity of the subject. I contacted O ■■■■■ and he was able to verify that he was the subject on camera. I also was able to identify ■■■■■

■■■■■ C ■■■■■

■■■■■
■■■■■
■■■■■
■■■■■
■■■■■
■■■■■
■■■■■

O ■■■■■ and C ■■■■■ both told me that they were not aware they were being recorded.

Due to a lack of further identifying information, I was unable to visually identify further victims.

Nothing further at this time.

NARRATIVE

In reference to Chesterfield Police Report #14-2867, wherein a hidden camera was placed in the men's restroom at Mobil on the Run, 1789 Clarkson Road, I wish to report the following:

On, Tuesday, July 1, 2014, Lt. Chris Mateja of the St. Charles County Cyber Crime Task Force, contacted me regarding additional videos that were found during Det. Larry McClain's examination of the computer evidence seized from the suspect, David Cerna's, residence. Lt. Mateja stated that a video was found that appeared to show Cerna conducting a search of a young male subject that was handcuffed behind his back. A Chesterfield police car is clearly visible in the background of the video, which appears to be filmed with some type of hand held device. During the search, Cerna pulls the elastic waistband of the subject's sweatpants outward, causing the subject's penis to be visible in the video.

On Wednesday, July 2, 2014, I responded to the St. Charles County Sheriff's Department where I met with Det. McClain. He advised that since uncovering the video noted above, additional videos of a similar nature were found. The videos found depict four different male subjects who are being searched by Cerna while working as a police officer. The videos are recorded with some type of hand held device and during each search; Cerna pulls the elastic waistband of the subject's shorts or sweatpants outward, causing the subject's penis to be visible in the video. As with previous videos that were found, it appears that Cerna would edit the original video and save the edited videos as new file names. Therefore, there are several files containing what appears to be the same original video.

Det. McClain provided me with copies of these video and image files to assist in my investigation. Additional information related to the content of the videos and identification of the subjects depicted in the videos will be provided via supplemental report.

It should be noted that the policy of the Chesterfield Police Department defines a strip search as "the removal or rearrangement of some or all of the clothing of a person so as to permit an inspection of the genitals, buttocks, anus, breast, or undergarments of such person." Per this policy (General Order 4-02), a strip search is only permitted when a person is arrested or detained for a felony offense and must be approved by a commanding officer of the department. Persons arrested or detained for a traffic offense, city ordinance violation or misdemeanor could only be strip searched if probable causes existed to believe that the person is concealing a weapon, evidence of commission of a crime or contraband. Written permission from the commanding officer must be obtained prior to the search of a non-felony suspect.

Det. McClain also informed me that his initial examination has uncovered additional videos that were filmed in the men's locker room of the Chesterfield Police Station. Included in these were videos saved under file names:

[Home Video] Thurs Feb 6
IMG_0817

Both of these files appear to be from the same video, but one is edited. The video depicts [REDACTED] [REDACTED] changing into his police uniform, during which he is nude from the waist down and his genitals are visible on the video.

Det. McClain's examination of Cerna's hard drives and computer equipment is on-going.

Nothing further.

NARRATIVE

In reference to Chesterfield Police Report #14-2867, wherein a hidden camera was placed in the men's restroom at Mobil on the Run, 1789 Clarkson Road, I wish to report the following:

As noted in Supplement # 6, videos of four different subjects being searched by Cerna while working as a police officer were found on computer evidence seized from Cerna's home. The videos are recorded with some type of hand held device and during each search; Cerna pulls the elastic waistband of the subject's shorts or sweatpants outward, causing the subject's penis to be visible in the video.

The first video that was found was saved to an external hard drive under file names "IMG_2670" and "IMG_2802". The video shows a young white male, 16 - 19 years of age, blonde hair, wearing a blue Nike jacket and black sweat pants with a logo on the left pant leg. The subject was handcuffed behind his back and a Chesterfield police car is visible in the background of the video. I could hear a voice I recognize as Cerna's voice giving the subject instructions and asking questions about the smell of marijuana in a car. The video shows Cerna pulling the elastic waistband of the subject's waistband outward, exposing his penis.

The logo on the sweat pants was difficult to discern, but it appeared to be similar to the [REDACTED] logo. I was able to obtain a still photo of the subject's face from the video to assist in identifying the subject. On Wednesday, July 2, 2014, I responded to [REDACTED] where I contacted [REDACTED]. [REDACTED] was unable to positively identify the subject as a [REDACTED] student, but I later emailed her a copy of the still photo for her to disseminate to other administrators and staff. To date, I have been unable to identify this subject.

Further attempts will be made to identify this subject and any additional information will be provided via supplemental report

In reference to Chesterfield Police Report #14-2867, wherein a hidden camera was placed in the men's restroom at Mobil on the Run, 1789 Clarkson Road, I wish to report the following:

As noted in Supplement # 6, videos of four different subjects being searched by Cerna while working as a police officer were found on computer evidence seized from Cerna's home. The videos are recorded with some type of hand held device and during each search; Cerna pulls the elastic waistband of the subject's shorts or sweatpants outward, causing the subject's penis to be visible in the video.

Videos of a subject were found in a folder named "DO NOT ADD TO ITUNES" and saved under filed names:

img_0563
img_0565
img_0566
IMG_0574
img_0575
IMG_0576
IMG_0577
IMG_0578

IMG_0579
img_0580

Each video shows a white male subject wearing white athletic shorts and striped underwear. I could hear a voice I recognize as Cerna's voice giving the subject instructions. The video shows Cerna pulling the elastic waistband of the subject's waistband outward, exposing his penis. Several of the videos have a photograph of a white male, 16 - 18 years-of-age, with short brown hair, superimposed on the video. The photograph is similar to a driver's license photo.

Through investigative efforts, this subject was identified as:

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

On Thursday, July 3, 2014, I contacted [REDACTED]'s mother, [REDACTED], at [REDACTED]. I explained the nature of my investigation and requested to speak with [REDACTED] regarding this incident. She agreed and at approximately 1400 hours, I responded to their residence where I spoke with [REDACTED] and [REDACTED].

I explained to [REDACTED] that an image of him was found on a computer that was being analyzed as part of a criminal investigation related to a Chesterfield Police Officer. I showed him a still photo of the photograph that was superimposed on the videos and he identified himself in the photo. [REDACTED] signed the still photo indicating his identification.

I then showed him a department photograph of Cerna and asked if he ever had any dealings with him. [REDACTED] stated that he recognized Cerna after he was stopped for [REDACTED] on Clarkson Road earlier this year and Cerna "really frisked" him.

[REDACTED] explained that he was stopped by a Chesterfield police officer for [REDACTED] on Clarkson Road near Chesterfield Mall. He believed the stop was around March of 2014 and was between 11:30PM to midnight. He said Cerna was not the original officer that stopped him, but he showed up later to assist. During the course of the stop, the original officer asked him to step out of his car and directed him to the police car. While the original officer was searching [REDACTED]'s car, Cerna remained with him. During this time, Cerna searched [REDACTED] by advising him to

place his hands on the police car. While searching him, Cerna pulled the waistband of his shorts and underwear out and shined a handheld flashlight down the front of his pants. After searching him, Cerna placed him into handcuffs and had him sit in the backseat of the police car. [REDACTED] could recall no other interaction with Cerna other than this incident.

I explained to [REDACTED] and [REDACTED] that in addition to the photograph that was found on Cerna's computer, a video depicting the search of him was also found. This video included images of his genitalia. [REDACTED] stated that he was unaware that he was being recorded while being searched and he never gave Cerna permission to record him in this manner. [REDACTED] also stated that he turned 17 on [REDACTED]

[REDACTED] completed a two-page handwritten statement which was seized by me and placed into evidence.

I later showed [REDACTED] a portion of the videos at which time he identified himself as being the person in the video.

[REDACTED]
[REDACTED]
[REDACTED] I called [REDACTED] who verified that January 21st was the date he was searched by Cerna. [REDACTED] would have been 16-years-of-age on this date.

The interview with [REDACTED] was recorded via a digital audio recorder. A copy of this recording, along with the still photo signed by [REDACTED] and a copy of his driver's license photo were entered into evidence.

Due to the fact that [REDACTED] was under the age of 18 at the time the video was made, this information will be forwarded to the St. Louis County Prosecuting Attorney's Office for consideration of additional charges against Cerna.

Any additional information will be provided via supplemental report.

In reference to Chesterfield Police Report #14-2867, wherein a hidden camera was placed in the men's restroom at Mobil on the Run, 1789 Clarkson Road, I wish to report the following:

As noted in Supplement # 6, videos of four different subjects being searched by Cerna while working as a police officer were found on computer evidence seized from Cerna's home. The videos are recorded with some type of hand held device and during each search; Cerna pulls the elastic waistband of the subject's shorts or sweatpants outward, causing the subject's penis to be visible in the video.

Videos of a subject were found in a folder named "DO NOT ADD TO ITUNES" and saved under filed names:

IMG_6407

IMG_6408

[REDACTED]

[REDACTED]1

[REDACTED]2

In addition, two photos related to this subject were saved under file names:

IMG_6409

IMG_6413

The first photo appears to be a driver's license photo. The second looks similar to a booking photo. Both photos are of the same person. The file named "[REDACTED]" has these two photos superimposed on the video.

The videos are short in duration and show the waistband of the subject's pants and underwear being pulled out, exposing his penis. I heard a voice I recognized as Cerna's voice telling the subject to "look up at the light." It appears the video is filmed inside a building.

Through investigative efforts, this subject was identified as:

[REDACTED] W [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

W [REDACTED] at his residence. Also present was his mother:

[REDACTED]

[REDACTED]

[REDACTED]

I explained to him the nature of my investigation and that an image of him was found on a computer that was being analyzed as part of a criminal investigation related to former Chesterfield Police Officer David Cerna. W [REDACTED] stated that he knew Cerna as he is the officer [REDACTED] on Christmas Day. I showed him the two photos that were found on Cerna's computer and he identified himself in the photos. [REDACTED] signed the still photos indicating his identification.

W [REDACTED] stated that he [REDACTED]

[REDACTED]

[REDACTED] He was conveyed to the police station by Cerna, but was not searched prior to being placed in the police car. After arriving at the station, Cerna searched W [REDACTED] two times in the jail area of the station. One search occurred prior to going into an interview room. The second was shortly before he was released. W [REDACTED] initially could not recall

Cerna rearranging his clothes in order to see inside his pants. He later noted that both times Cerna searched him, Cerna ran his hand through his waistband and pulled his pants outward to view the inside of his pants. In doing so, Cerna was able to see his genitalia. W█████ stated he was wearing a white shirt, gray sweat pants and boxer briefs. W█████ could not recall seeing anything in Cerna's hands while being searched. W█████ stated that he has had no other contact with Cerna since that day, other than a sick case call at their residence in March, 2014.

I later showed W█████ a portion of the videos at which time he identified himself as being the person in the video. W█████ stated he was unaware he was being recorded while being searched and never gave Cerna permission to record him in this manner.

W█████ completed a one-page handwritten statement which was seized by me and placed into evidence.

The interview with W█████ was recorded via a digital audio recorder. A copy of this recording, along with the still photos signed by W█████ and a copy of his driver's license photo and booking photo from December 25, 2014 were entered into evidence.

Any additional information will be provided via supplemental report.

[x] C 0041-SL2

1
2

3

4

The first file noted above shows a white male, 19 - 21 years of age, brown hair, mustache and beard, wearing a green tie-dyed shirt with a smiley face and plaid pants. The subject was occupying a red Pontiac Sunfire, which appeared to be parked on a subdivision street. I could hear a voice I recognize as Cerna's voice giving the subject instructions and asking questions why he was in the area and who he was meeting. The video shows Cerna pulling the elastic waistband of the subject's waistband outward, exposing his penis. The video has the words "[REDACTED] - All in a days work!" superimposed at the beginning of the video.

The second video is titled "[REDACTED] - A Few Hours Later..." and these words are superimposed at the beginning of the video. The video is black, but I could hear a voice that I recognize as Cerna's talking to another male subject. The video is 24 minutes and seven seconds in length and sounds as if the two are engaged in consensual sexual activity. Toward the end of the video, Cerna can be heard giving the other subject \$146. After the subject leaves, Cerna records through a window and the same [REDACTED] that was in the first video is seen backing out of Cerna's driveway.

The remaining videos are filmed in Cerna's residence in Wentzville, MO where he and a male subject are engaged in consensual sexual activity. The other male subject appears to be the same subject that is in the first video that Cerna is searching. The videos appear to be from one encounter, but from two different camera angles. In one of the videos, "[REDACTED]" is superimposed at the beginning of the video.

Through investigative efforts, Subject #1 was identified as

C [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

On Monday, July 7, 2014, I made contact with C [REDACTED]
[REDACTED]

I explained to him that during the course of an investigation, an image of him was found on a computer that was being analyzed as part of that investigation. I showed him a still photo obtained from the video of him being searched and he identified the photo as being him. He remembered the photo being from when he was stopped by a police officer when he was

parked in a neighborhood in Chesterfield. He was unsure of when this occurred, but believed it was around August or September of 2013.

C[REDACTED] explained that he was parked in the neighborhood, around 0100 hours, texting with a person he was trying to meet up with, when the officer contacted him. I showed him a department photo of Cerna at which time he identified him as the officer that contacted him that day.

He continued to explain that Cerna asked him if he could search his car, to which he agreed. Before doing so, Cerna searched him. He said the search included Cerna feeling his genitals through his clothing in a way that was uncomfortable to him. He then pulled the waistband of his pants outward allowing him to see inside his pants. When he did this, Cerna's hand was close to C[REDACTED] genitals which made him very uncomfortable. C[REDACTED] did not recall if Cerna had anything in his hands at the time of the search. A short time later, Cerna allowed C[REDACTED] to leave.

I later showed C[REDACTED] a map book and he pointed out the Forum Apartments near Woods Mill Road and Olive as the location where he was contacted by Cerna.

After explaining that a video of the search was found on the suspect's computer, C[REDACTED] stated that he was unaware that he was being recorded while being searched and never gave anyone permission to record him in this manner.

C[REDACTED] went on to explain that a few minutes after leaving the neighborhood, he received a text from an unknown subject who indicated he was a friend of the person he was originally trying to meet. C[REDACTED] did not know how this person obtained his cell phone number, but he noted that Cerna looked at his phone during his contact with him. The person offered to hang out with him and the two eventually agreed to meet at an apartment complex pool in Chesterfield. When C[REDACTED] arrived, the subject offered him \$200 in exchange for allowing the subject to give C[REDACTED] oral sex. C[REDACTED] stated that the area was dark and the subject had a hat pulled low on his head making it difficult to see him. C[REDACTED] said he declined the offer of money and left. By using the map book again, C[REDACTED] pointed out the area of Chesterfield Village Apartments as the complex where he met the subject.

C[REDACTED] continued to receive text messages from the subject and C[REDACTED] agreed to meet the subject at a home in Wentzville, which the subject claimed he was house sitting. He said he arrived at the home sometime before 0700 hours and the two engaged in consensual sexual activity in the front bedroom of the home. C[REDACTED] stated that the subject was wearing a wig that concealed his face and prior to leaving; the subject paid him approximately \$150.

C[REDACTED] said he returned to the same home about one week later and he and the unknown subject engaged in consensual sexual activity. Again, the subject's face was concealed and he paid [REDACTED] \$150 - \$200.

C[REDACTED] stated that the subject texted him several times after the second encounter, but C[REDACTED] did not return the messages and he has not seen or heard from the subject since.

When explained that his encounters with Cerna at his residence were recorded and found on his computer, C[REDACTED] stated that he was unaware that he was being recorded and did not give Cerna permission to record him.

C[REDACTED] provided a one-page handwritten statement which was seized by me and placed into evidence, along with the still photo obtained from the video of the search.

Any additional information will be provided via supplemental report.

NARRATIVE

In reference to Chesterfield Police Report #14-2867, wherein a hidden camera was placed in the men's restroom at Mobil-on-the-Run, 1789 Clarkson Road, I wish to report the following:

On Friday, July 25, 2014, I was contacted by Det. Larry McClain, DSN 133, of the St. Charles County Cyber Crime Task Force, who informed me that he completed his forensic examination of computer evidence seized from the suspect, David Cerna. I responded to his office where he provided me with a digital copy of his report and related evidence which was saved to an external hard drive. This hard drive was later entered into evidence along with a hard-copy of Det. McClain's report.

Det. McClain's forensic examination involved the analysis of thirteen separate items consisting of two personal computers, a laptop, two cell phones, an iPod, two MP3 players, an iPad tablet and four external hard drives. Six of these items contained nothing of obvious evidentiary value, including an HP Pavilion laptop computer, Western Digital external hard drive (HD3), Apple iPhone 5, two Sony MP3 players, and an Apple iPad mini.

The following items contained images, video files and other items related to this investigation:

Western Digital My Passport external hard drive (HD4)
Huawei cell phone
Apple iPod
HP Pavilion Computer (PC1)
HP Pavilion Computer (PC2)
Western Digital "My Cloud" Storage Device (HD1)
Western Digital external hard drive (HD2)

The above devices contained hundreds of images, video files and other items related to Cerna's operation of a glory hole at his residence in Wentzville, MO and of covertly filming people while using public restrooms. Many of the devices contained identical images and videos, indicating that Cerna would save duplicate files on multiple devices. Also, as noted in previous supplements, Cerna would edit the videos and then save the edited version under a different file name. Therefore, it was common to have several individual files consisting of the same person. Det. McClain was unable to determine the exact dates that the video files were recorded.

A majority of the videos of men in public restrooms were filmed in a restroom that was determined to be the men's restroom at the Mobil-on-the-Run, 1789 Clarkson Road in Chesterfield. The content of these videos were documented in previous supplements and those persons who were able

to be identified have been listed as a victim in this report. This includes several Chesterfield Police Officers and [REDACTED]
[REDACTED]

In addition to the Mobil-on-the-Run restroom, there were videos that showed men using other public restrooms. There were at least seven other public restrooms depicted in these videos. In some of the videos, it appears the person recording the video was holding the device while standing next to men urinating at urinals. In other videos, it appears the person recording the video is filming through a hole in a wall or stall divider.

The devices also contained images and documents related to Cerna's "Offthegrid" website that he created and uploaded restroom and glory hole videos to. These items included:

- 1.) A screen capture of an email congratulating the user that WordPress was successfully installed on the "Offthegrid" website;
- 2.) Images of the "Offthegrid" website logo;
- 3.) Videos and images edited with information related to the "Offthegrid" website; and
- 4.) Emails entitled "bonus site members".

The Apple iPod had a user created device name of "SpiPod" and contained numerous images and videos of adult males using the restroom at the Mobil-on-the-Run in Chesterfield. Included were images of [REDACTED] C[REDACTED], a [REDACTED] who was previously identified in Supplement #5 as one of the victims recorded by Cerna. The video files consisted of six videos of men using the restroom at Mobil-on-the-Run, including two videos of PO [REDACTED] J[REDACTED], as described in Supplement #3. Black Velcro was adhered to the back of this device and based on the angle of the videos; it appears the device was located above the toilet.

Video and images from the men's locker room at the Chesterfield Police Department were also located on several of these devices. As many as forty-four (44) videos depicting at least nine different officers changing clothes in the men's locker room of the Chesterfield Police Station were found. The majority of these videos did not show any nudity, with the exception of videos of P.O. [REDACTED] J[REDACTED], as noted in Supplement #6. It should be noted that P.O. J[REDACTED] was hired by the Chesterfield Police Department on [REDACTED]. According to him, the video(s) would have been recorded between that date and February 28, 2014. He believes this due to the fact that he was changing into long thermal underwear, which he only wore when it was extremely cold outside. Including P.O. J[REDACTED], the following officers were recorded in the locker room:

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

Dave Cerna was also visible in some of the videos. In one video, he looks directly at the recording device and in another; it appears he moves the device to obtain a different angle.

Videos showing Cerna searching four different subjects while working as a police officer were located on two of the Western Digital hard drives (HD1 and HD2). The content of these videos are documented in Supplements #6, 7, 8, 9 and 10. No other similarly related videos or images were found. However, there were five images of apparent booking and/or driver's license photos of unknown individuals found on HD1 and a couple of videos of presumably Cerna operating a police car were also found.

Based on registered owner information, user account names, file and folder construction, email addresses, and the content of the analyzed devices, it appears as if Cerna was the primary user of computers and hard drives.

As part of Det. Michael Coyne's investigation into incidents that occurred in St. Charles County, he served a search warrant on the Citrex web hosting company for information related to Cerna's "Offthegrid" website. In response to this search warrant, Citrex provided the content of the "Offthegrid" website. Included in this information were many of the same images and videos that were also found during the RCCEEG examination of Cerna's computers and electronic devices.

Also via court order, Det. Coyne obtained content of Cerna's Dropbox account which contained several of the Mobil-on-the-Run bathroom videos filed in a folder entitled "SPYCAM." There were three additional videos of three different men defecating at an unknown public restroom. The camera appears to have been placed inside the mesh pocket of a backpack that was lying on the floor in an adjoining stall.

Det. Coyne provided me with the Citrex and Dropbox information, which were saved to an external hard drive and later entered into evidence.

Any additional information will be provided via supplemental report.

NARRATIVE

In reference to Chesterfield Police Report #14-2867, wherein a hidden camera was placed in the men's restroom at Mobil on the Run, 1789 Clarkson Road, I wish to report the following:

As noted in previous supplements, it was discovered that the suspect, David Cerna, placed a recording device on multiple occasions in the men's locker room of the Chesterfield Police Department. In one instance, he recorded PO [REDACTED] J [REDACTED] changing clothes, and while doing so, his genitalia was exposed. It was also discovered that Cerna had secretly recorded four males while he was conducting a search of their persons while working as a police officer. The recordings focused primarily on the exposed genitalia of the men. Three of these four males have been identified and one was found to be sixteen years of age at the time the recording was made.

Due to the fact that these recordings depicted a different course of conduct as compared to the Mobil-on-the-Run bathroom videos, attempts were made to locate Cerna for the purpose of re-interviewing him and taking him into custody for additional criminal charges related to those recordings.

I responded to his residence on Wednesday, August 6, 2014 and again on Wednesday, August 13, 2014, but was unable to make contact with him. Previous phone numbers on file for Cerna were no longer valid.

On Wednesday, August 13, 2014, I attempted to contact Cerna's boyfriend, [REDACTED]. It was learned that this was the home phone number of [REDACTED] and a message was left for him to contact me.

A few hours later, I was contacted by Dan Juengel, an attorney representing Cerna in this matter, BP: (314) 725-7777, CP: [REDACTED]. Mr. Juengel stated he was aware I was attempting to contact Cerna and he has advised his client not to make any statements to police. I explained to Mr. Juengel that new evidence was developed during this investigation resulting in additional charges being sought against Cerna. I asked him if he would arrange to surrender Cerna to me for processing and warrant application. Mr. Juengel offered to cooperate in any way necessary, but stated he wished to speak with the Prosecuting Attorney assigned to Cerna's case prior to committing to a time for surrender. It was agreed that Mr. Juengel would contact me to make arrangements to surrender Cerna after he speaks to the Prosecuting Attorney.

On Thursday, August 14, 2014, at 1330 hours, Mr. Juengel contacted me at the Chesterfield Police Station and surrendered Cerna to my custody. In Mr. Juengel's presence, Cerna was advised of his rights per the Miranda Decision, which he stated he understood, but declined to make any statement at this time. Cerna completed and signed a Notification and Waiver of Rights form indicating his understanding of his rights but refusal to waive those rights.

Cerna was escorted to the booking area where he was booked under AR#14/952 and OCN: K3007059 for Sexual Exploitation of a Minor, Invasion of Privacy (F), and Invasion of Privacy (M). He was conveyed to St. Louis County Intake where he was held pending warrant application.

Any additional information, including the results of warrant application, will be provided via supplemental report.

NARRATIVE

In reference to Chesterfield Police Report #14-2867, wherein a hidden camera was placed in the men's restroom at Mobil on the Run, 1789 Clarkson Road, I wish to report the following:

On Thursday, August 14, 2014, I responded to the St. Louis County Prosecuting Attorney's Office and met with Assistant Prosecuting Attorney Michael Hayes. After careful consideration, APA Hayes issued a complaint charging the suspect, David Cerna with one count of Sexual Exploitation of a Minor and one count of Invasion of Privacy - Felony. The warrant was authorized by the Honorable David Vincent of Division 9 of the St. Louis County Circuit Court with a \$50,000 cash only bond. The warrant was served on Cerna by me as he was in custody in the St. Louis County Intake Center.

Regarding an additional charge of Invasion of Privacy - Misdemeanor related to the filming of PO [REDACTED] J [REDACTED] in the men's locker room of the Chesterfield Police Station, APA Hayes stated that he will be adding that charge to the original case filed against Cerna in June.

This case should be reclassified to Cleared By Arrest.

Nothing Further.
