

EX ALDERMAN NEWSLETTER 468 AND CHESTERFIELD UNAPPROVED 413

February 27, 2021

TOWN AND COUNTRY RESIDENT ARRESTED FOR SEX OFFENSES: This was in the Chesterfield Police Monthly Report. We will check for more information once charges are filed.

**SEXUAL ABUSE,
ASSAULT**

A 35 year old Town and Country resident was arrested for Sexual Abuse 1st and Assault 4th. The individual inappropriately touched a mother and teenage daughter shopping at a store in Premium Outlets where the suspect was employed.

This is all we were provided by the Chesterfield Police Department:

Andrew Carr, age 35, resides 63017, arrested 1/27/2021 at the Chesterfield Police Department. Offense date was 1/3/2021. Pending application of warrant St. Louis County PA.

FIRE & EMS TASK FORCE MEETING: Some of the same old stuff plus city officials not having a clue.

The Fire District is once against giving out some very expensive Kool-Aid and members of the Fire & EMS Task Force are drinking it by the pitcher full.

The fire district and now the Task Force claims Town and Country needs to abandon the current 30-year-old fire station and build two new ones at a cost of \$5,000,000 each.

To do this the District Fire Chief recommends Town and Country either have its own property tax for fire service that would have owners of a \$600,000 house see their taxes go up \$1,000 a year or join the Union controlled Fire District where under the Fire District taxes you would still see at least a \$1,000 increase in real estate taxes for a modest house.

Let's do the math.

Fire Station #1	\$5,000,000
Fire Station #2	\$5,000,000
2 nd Pumper & Amb	\$4,000,000 a year + inflation
Crew for 2 nd Fire Station	

That is \$14,000,000 to start followed by at least at current figures \$8,000,000 a year for Union fire fighters/Paramedics to operate out of two fire houses. Keep in mind there are about 4 ambulance calls a day and 1 fire truck call a day for the T&C fire station. Add a second fire station and cut those calls in half and have high paid Union firefighters spending a lot of time playing video games or being on their cellphones.

This stuff needs to go to the Ways and Means Commission for their opinion if it is fiscally responsible doing what the fire chief is dreaming about.

WHAT? YOU HAVE TO BE KIDDING ME! Ald. Ryan Mortland, Fire Chief Dave Sadtler and Police Chief Jim Cavins all agreed that Town and Country would be growing as another reason for a second fire house and police substation. GROWING?

Town and Country is landlocked. It can not expand its city limits unless it annexes down Weidman Road or Hwy 141. It could annex down Mason taking in condos and then on Manchester down to Manchester Meadows. But really folks, with one-acre residential lots required the only real place for new houses is on Ladue Road if Hunter Farms sells off land or the Bellerive Country Club goes bankrupt and sells off the golf course. Neither are likely to happen. If any land is annexed it is already in a Fire District.

Chief Cavins still wants a police substation in a new fire station near Hwy 141 and I-64. The Chief actually said officers from the substation would be able to respond quickly to crashes on EB I-64 and officers from HQ could do the same for WB crashes. I'm using my 32 years of police experience to say that the officers should be out on patrol and you really don't know where they will be when responding to radio calls.

Also this is the Fire/EMS Task Force. It seems as if police issues should be discussed at a different commission meeting.

TOWN AND COUNTRY PLANNING AND ZONING: Wednesday 02/17/21

Dr. Matthew Bruckel presents plans for a Total Access Urgent Care at Clayton and Ballas in front of Town and Country P& Z Bruckel received tough questioning about traffic, exterior lighting and whether there is a need for an Urgent Care facility at

Clayton and Ballas and he did not once claim he thought he was in Russia. (Comments made one day earlier at the Chesterfield City Council meeting.)

Bruckel started his presentation off at the Wednesday February 17 P&Z meeting admitting the location at Clayton and Ballas is very close to the Missouri Baptist BJC Hospital ER on Ballas and the Mercy Hospital ER on Ballas at Conway Rd. He then stated people hate emergency rooms for four reasons.

Wait is **too** long from treatment

Too Expensive

Too Complicated

Too many people are rude to you

For these reasons he claimed people want and need his urgent care clinics. He asked how many people have gone to one of his urgent care clinics. A number of people on the commission put up their hands. He claimed people flock to the urgent care clinics instead of hospital ERs. But later in answering questions on the impact on already bad traffic conditions at the intersection of Clayton and Ballas he suddenly claimed there were only about two or three patients an hour.

In his opening remarks he said how this urgent care clinic would be in the center of Town and Country. The caused Mayor Jon, former cigarette lobbyist and current marijuana lobbyist, Dalton to ask him what he meant by the “center of town.” (Clayton and Ballas was the Center of Town and Country in 1975 when the east west city limits were bordered by Bopp Road and Topping Road.)

Nobody ever mentioned that this facility would also be used by residents from Frontenac, Crystal Lake Park, Des Peres, The Village of Westwood and Creve Coeur.

Here are some of the plans submitted.

West side

East Side

North side

South side

Long time P&Z Commissioner Dennis Bolazina said how left turns during rush hour needed to be prohibited. He especially mentioned that EB Clayton traffic which would be near the Ballas intersection, could not be stopped with someone wanting to make a left turn. Traffic would be backed up into the intersection.

Dennis Bolazina, architect and lawyer

Bolazina also said Bruckel needs to do a new traffic study. For some strange reason Bruckel had submitted a traffic study done for their clinic in Washington, Missouri in western Franklin County.

Bruckel started getting agitated but he never threatened to hit the nuclear button and withdraw his plans, like he did in Chesterfield after called the Council "Russians." However, he did have some comments that were noteworthy due to their aggressive nature.

"We are open to lots of ideas, but limiting the access is not one of them."

"We don't want special treatment. We just want to be treated like everyone else," said Bruckel.

Dennis Bolazina replied that the other businesses have been there a long time. “Things change,” said Bolazina. (McNamara’s service station has been there for 60-plus years and the office/medical buildings have been there 45-to-50 years.)

“You can’t be limiting access to a medical facility. We take care of mothers with blue babies and people having heart attacks,” said Bruckel.

Alderwoman Tiffany Frautschi responded. “If someone has a blue baby, I’d think they would be going to one of the hospital emergency rooms up the street.”

Bruckel retorted, “If the city is going to restrict our access, it should restrict access to everyone on other corners.” He also said the drivers in Town and Country are nicer than other drivers and will stop and wave people on to make their left turns.

Bruckel claimed he lives in Town and Country. But real estate tax records show he bought a house on East Jefferson built in 1858 and rehab/remodeled it, while vehicle tax records show him living in Webster Groves.

Former Alderman and tax cheat (avoided paying city and state sales taxes on a new car by registering it in Illinois) Fred Meyland-Smith suggested Bruckel consider changing the clinic’s hours, opening at 9am after morning rush hour instead of at 8am. That resulted in an unusual response from Bruckel.

“I will host a party from 7:45 in the morning until 8PM with food and beverages and invite you and you can see that traffic won’t be an issue.”

“I don’t see any other kind of business surviving there. We will have a tiny footprint, a tiny number of cars, just three cars an hour. (This contradicts his argument the night before in Chesterfield where he said he needed signs in all the windows on his planned clinic on Olive Blvd to get more people and more revenue.)

“I don’t see any other business surviving this kind of panel (P&Z Commission) unless you expect them to run a business with no cars, a bike shop you have to ride bikes to.”

Fred Meyland-Smith spoke again. We reduced his longwinded statement/question. “We need to ask what does a business that comes to town, do to make Town and Country a better place?”

“I think this is a location that deserves an urgent care,” said Bruckel.

Tiffany Frautschi then brought up another point concerning using city services. She said that the Total Access Urgent Care in the Manchester Meadows Center generated 0.63 EMS ambulance calls a day.

Tiffany Frautschi

Bruckel responded: “2.9 % of our patients go to the hospital. Not all of them in an ambulance. Some have another person drive them. I don’t see ambulances being an issue at this location.”

Mayor Jon, who stole a widow’s property and business with eminent domain for a parking lot for a nightclub that never got built in St. Louis and according to a Federal Court cheated her out of \$900,000) Dalton apparently was not paying close attention and repeated a question asked several times. “Why is this a good location? Why is it in the best interest of Town and Country?”

“I see it as a good location being so close to these other major intersections. We are a low volume, low noise business and people need medical services,” said Bruckel.

Commissioner Dr. Gary Omell had asked Bruckel a number of medical services questions earlier. He now changed the subject.

Dr. Omell

“Does your facilities accept Medicare and Medicaid?”

Bruckel they accept Medicare and all major insurances, but don’t accept Medicaid. “We have the best rates for uninsured,” said Bruckel and gave some of the rates that Dr. Omell agreed were very reasonable.

Fred Meyland-Smith managed to get the best insult of the night out of Bruckel.

“Dr. Bruckel, I’m disappointed with your response earlier to Ald. Frautschi.”

“I DO BELIEVE THIS MEETING IS NEGATIVE,” said Bruckel.

“I take exception to your statement of overall negativity,” said Meyland-Smith.

Then came the sidewalks! Dennis Bolazina then stated they city would expect 5-foot wide sidewalks in front of the building on Clayton and Ballas roads.

Bruckel said the sidewalks would not connect with any existing sidewalks and other businesses on the corners did not have sidewalks (There is the Clayton trail sidewalk across the street on the south side of Clayton Road that runs the entire length of the city.)

There was evidently an agreement on sidewalks.

Next Bolaniza complained that according to the plans submitted the façade of the building would be covered by so many exterior lights that it would look like “Times Square.”

At this point there was a motion to continue the matter to the March 17 P&Z meeting. Bruckel spoke up that the plans should be voted on now. The P&Z Commission answered with a 9-0 vote to continue the matter.

02/22/21 BOARD OF ALDERMEN MEETING

Plans to open wine bar at Town Square

Full service restaurant

Before the start of the meeting Mayor and soon to be ex-mayor Jon Dalton announced that despite a pandemic Marc Delpietro plans to open a restaurant in the mostly vacant Town Square. Jay Delsing announced he was opening an 1800 square foot wine bar that will also have a full bar next to the nail salon in the Town Square.

The wine bar will be to the left of the Nail Salon.

The center section is the spot Delpietro restaurant.

When the Town Square was planned developer Bob Brinkman who bought the center of the 9 acres promised an ice cream shop and a restaurant that was “family friendly.” I don’t know how you will be taking the kids to the wine bar with full bar service that only will be serving cheese and crackers to eat or a restaurant with \$\$\$\$ after the review.

WINE AND CHEESE PLACE MOVING: The Wine and Cheese Place store in the strip center on Clayton Road at Wildwood before Baxter Road is apparently fleeing Chesterfield for Town and Country if they can get the County Health Department to approve the new location

This is kind of odd since you can see the current store from Clayton Road now. The new location is pretty far off of Woods Mill and is after the shopping center turn in. It is completely hidden from Clayton Road located behind and below the Gas & Wash Car Wash. The aldermen voted to approve the liquor license once the health department approves the location for food.

RESOLUTION AGAINST RIGHTS OF CITIZENS TO PETITION GOVERNMENT IS WITHDRAWN. The resolution written by Ald. Jon Benigas urging residents not to sign a petition to obtain an audit by the Missouri Auditor's Office of City of Town and Country spending and if they did sign the petition to pull their name off the petition was on the agenda, but not for long. The resolution had been continued twice.

The people behind the petition, including former Ald. Lindsey Butler, were upset at the Town Square project going from an estimated \$5.4-million to \$10-m, that \$250,000 was spent on a sidewalk the city did not have a county permit to build and after two days of construction was stopped for 18 months before the original sidewalk torn up by the city was repaired. The planned sidewalk was never built. The same with road improvements at the intersection of Clayton Rd and Ballas Rd. Big money was spent on engineering and then the project was abandoned.

In the agenda pre-meeting it was Ald. Tiffany Frautschi who said she wanted the resolution withdrawn at the last two meetings, but with the number of residents upset by the resolution she felt the residents should see how their alderpersons vote on it.

It was interesting that the resolution suggested residents don't use their rights to petition government, but a section of the resolution by Benigas was false and a lie.

WHEREAS, recently, the Ways and Means Commission suggested, and the City staff adopted, new practices focused on improving management reporting; and

The city's Ways and Means Commission never debated this or voted on any suggestion or recommendation. One member mentioned the citizen petition at the end of the meeting. It was not even in the minutes of the any Ways and Means meeting. It was a LIE by Benigas.

Frautschi did not get to vote NO on this. It was withdrawn at the request of Benigas.

A resolution to hire an auditing firm for \$25,000 to do an audit of special project spending was continued after Ald. Barbara Ann Hughes offered an amendment that the contract would not be offered if the citizen group got the required 750 signatures for a State Audit.

The announcement of the new tenants at the Town Square with Mayor Dalton spending five minutes praising himself for the foresight to buy the cash cow had to be a move to counter the petition drive for the audit of his time as mayor by the State of Missouri.

ON THE WAY OUT DALTON BRINGING BACK DALTONITES: When Mayor Jon “Conflict of Interest” Dalton announced in December he would not seek a fifth term in April he appointed Fred “Didn’t Pay City or State Sales Tax on his Last New car by licensing it in Illinois” Meyland-Smtih to the Planning and Zoning Commission.

He has now just announced he plans to appoint former Alderwoman Lynn Wright to the Architectural Review Board. Of course Wright has no experience involving building, designing or anything else. Her past campaign material described her as a 23-year stay-at-home mom. She then worked as a salesclerk at a clothing store in the Mason Village Shopping Center.

Dalton who represents a number of developers as a lawyer and lobbyist seems to be filling commissions before the end of his term in a month with this people who should be favorable with projects his clients will be involved with.

Of course with a new mayor, Dr. Charles Rehm running unopposed, the right thing to do would be let the new mayor appoint people to commissions. But “doing the right thing” and Dalton are rarely a mix.

POLICE/FIRE COMMISSION MEETING COMMISSION The meeting was held on Tuesday 02/23/21 at 4:30.

CHIEF CAVINS APPARENTLY DOES NOT KNOW THE AREA YET. At the Police/Fire & EMS meeting Chief James Cavins, who has been on the job 18 months, announced that in the event the police department had to relocated on an emergency basis due to a tornado, fire, etc; that Chief Sadler of the West County EMS and Fire Protection District volunteered that the city could use the training facility located at fire house #2.

The Chief then said, “House #2 is at Manchester Road and Mason in the City of Manchester.”

Uh...Chief...Fire station #2 is located in unincorporated St. Louis County, covered by the County Police, two miles east of the Manchester City Limits. Maybe another ride with an officer to fill you in on the neighboring jurisdictions and police forces would be helpful.

Commission member questions remodeling spending while city budget is stressed due to pandemic and over \$2,000,000 in the red..

Dr. Martin Willman asked why the remodeling and purchase of new furniture could not be put off until sales tax revenue rebounds after the pandemic. He was shutdown immediately by Chief Cavins.

Dr. Willman was sharply told that the remodeling was put off from 2020 due to the pandemic and loss of revenue. It would take place in 2021.

However, Dr. Willman had a very valid point that his fellow commissioners ignored.

The 2021 budget has an overall **budget deficit of \$2,405,741**. This remodel project plus the purchase of furniture and chairs comes in at \$197,169.89. One would think there could be some cutting. The furniture could be put off another one year or the whole project could be delayed another year. Here are the costs.

Remodeling: A. Eilers Construction ----- \$ 98,030.93

- Office Furniture(Police Department Offices) ----- \$88,401.94
- Shelving and Gun Locker (Detective Bureau)-----\$6,845.43
- Office Chairs (Police Department Offices) -----\$3,891.58

Total: \$197,169.89

BURGLARY On January 17th, at 5:41 am, a hotel guest staying at the Homewood Suites witnessed a white male subject attempting to break into a daycare center. He called the police and began chasing the suspect as he ran from the business. The guest chased the suspect onto Chesterfield Parkway and took him to the ground. As officers arrived the suspect escaped and once again began running. Officers pursued him on foot where he was taken into custody. A subsequent interview and investigation at the scene revealed he was responsible for two other burglaries in the area. The 24 year old St. Charles resident was charged with burglary second and stealing over. He is being held on a \$25,000 cash bond.

FRAUD A Chesterfield resident was a victim of a fraud after she received a phone call stating she had won a new convertible vehicle from the Publisher's Clearing House. She was deceived into sending \$52,000 in cash to two different out of state locations. Investigation is ongoing in coordination with other law enforcement departments to identify the suspects who were linked to an address out of state.

ROBBERY

On January 29th at 5:25AM, a cashier at a local gas station reported she was approached by a masked male on the parking lot. The suspect said he had a knife and forced her to go inside and open the safe. He stole a large amount of cash and was last seen running from the area. Detectives interviewed the clerk and retraced her morning route. Detectives quickly identified the suspect who is the boyfriend of the clerk. He made a full confession and claimed the clerk wasn't involved or had any knowledge of the incident. The suspect is a 24 year old Hazelwood resident. A majority of the cash was recovered, a warrant was obtained for Robbery 1st Degree and bond was set at \$100,000.

MOTOR VEHICLE THEFT

On January 25th, a victim allowed a female into his vehicle outside a business as she said she was afraid of her boyfriend and requested a ride home. The victim went inside the business and when he returned, his vehicle was gone. The vehicle that the suspect arrived in was searched and found to be stolen from a Post Office in St. Louis City. The victim's vehicle was recovered the following day in in Illinois with the suspect sleeping inside it. Detectives interviewed her and obtained a confession.

RECOVERED PROPERTY

A victim's hot air balloon valued at \$50,000 was stolen from a business on Chesterfield Airport Road in April 2020. In January, investigators received information that the item was being stored in a residence near Jefferson County. The property was searched and items were recovered. Ongoing attempts are being made to contact the suspects.

MOTOR VEHICLE THEFT

A victim's vehicle was stolen from the parking lot of a car dealership in December. The vehicle was tracked and recovered that same day. In January, a Detective identified the suspect who was put out as wanted and later arrested by another agency. At the time of this report, a warrant application is being made.

SPRINGFIELD, Mo. (AP) — A Missouri man is charged with robbing a woman at gunpoint minutes after bonding her out of jail.

[The Springfield News-Leader reports](#) that 22-year-old Robert Hyink, of Ballwin, was charged Friday with first-degree robbery and armed criminal action. His attorney didn't immediately return a phone message with The Associated Press. The probable statement says Hyink demanded the woman pay back the bond money and another \$500 after she was released from the Greene County Jail, where she was taken after a traffic warrant arrest.

The statement says that Hyink pointed a handgun at the woman after she said he would have to wait. The statement says Hyink then took her purse and keys as "collateral." Hyink told police he didn't steal from the woman or threaten her at gunpoint.

POLITICAL SMEAR JOB! BARB MCGUINNESS IS ATTACKED UNFAIRLY BY THE SCHENBERG CAMPAIGN WITH A FALSE POSTING ON NEXT DOOR WEBSITE: A post on the Next Door Website blames Barb McGuinness, Ward-1 Councilperson, who has been one of the founders of Chesterfield of trying to get rid of Republic Services trash collection. This could not be further from the truth.

The matter to force trash and recycling services for a bid was brought up by Ward-3 Councilman DAN HURT, who stated that he likes the service of Republic but they have operated for 16 years without the contract for refuse service being bid out.

It was a 5-3 vote to go to bids so there was not a tie as the poster claimed on Next Door. When a Councilperson is called to vote the name is rotated by the City Clerk. Hurt, McGuinness, mayoral candidate Ben Keathley, who introduced the bill, Michelle Ohley, Tom DeCampi voted to go out to bid rather than give one company 21-years of no-bid city contracts.

It was a matter of good government. I think they all hoped Republic would be the best bidder. This was clearly a political attack on McGuinness as the others in the majority voting for bids were not mentioned.

Here is the first post.

nextdoor

[View on Nextdoor](#)

 **Larry Smith, Greenfield Village**

Barb McGuinness was the tie breaking vote and at the Mayor's urging changed her vote because they are both up for re-election. So you can thank them both for this. If you look at the 9/9/20 City Council meeting minutes under New Business she used her office to publicly trash Republic and the Mayor... [See more](#)

The post is from “Larry Smith” in “Greenfield Village.” No mention was made in the post of the other councilpersons voting to go to bid, just McGuinness, including not mentioning the three others running for reelection. There was also a brief sound bite of the vote was edited and is not accurate. Past meetings had McGuinness talking about dealing with complaints from residents about Republic missing Friday pickup and refusing to pick the trash until the next week.

We checked the St. Louis County real estate records and found **NO Larry Smith or Lawrence Smith** listed owning property in the 63017 zip code or the City of Chesterfield. There were a lot from Florissant and several from Sunset Hills. We called a Trustee of the Greenfield Village subdivision and they were not familiar with any resident by the name of “Larry Smith.”

We have reported before how Gene Schenberg's website and mailers are filled with lies and half-truths. I would be very surprised if Larry Smith was not the work of Schenberg.

This smells rotten to the core and a set up. This is a clear SMEAR based on fraud.
