

BREAKING NEWS! February 18, 2016

REP. DON GOSEN PULLS AN ANTHONY WEINER AND SENDS DONALD DUCKING PHOTOS AND MORE TO YOUNG LADY. State Rep Don Gosen resigned from his House seat that represented Western Chesterfield and Wildwood on Wednesday morning. It appears as if it is another John Diehl type of incident that closely resembles Diehl's two girlfriends and sex texting similar to Anthony Weiner. There is also a very obscure connection to Donald Duck.

An extremely reliable source who I have obtain information about other stories which all turned out to be true contacted me stating he had most of the details surrounding Don Gosen's sudden resignation from the Missouri House of Representatives on Wednesday February 17. I then contacted other Jefferson City sources who provided me with confirming information concerning the sudden resignation of Don Gosen.

The story begins to unfold, that Gosen, 53, who lives in Ballwin on Clayton Road west of Kehrs Mill Road has multiple girlfriends. He is married and has been married for some

time. He has been a State Farm Insurance agent for a long time with an office on Taylor Road in Wildwood. He was elected to the 101st District of Missouri House of Representatives in 2010. He apparently quickly joined the Jefferson City Legislature fraternity party club.

We have been told by several sources that in the last two years Gosen has had affairs with several women. One source names an elected state representative. At least two of the relationships were over by 2016 when Gosen was in another relationship with a younger woman described as "twentyish" and from Jefferson City.

During that relationship Gosen is reported to have claimed he was divorced. Much like former Missouri Speaker of the House John Diehl (who like Gosen represented part of Chesterfield) and Anthony Weiner Gosen was sex texting. We were told that he was sending photos of him "Donald Ducking" which would have him like Donald wearing just a shirt and nothing else.

The Kansas City Star and the RH Reality Check Website quoted State Rep. Linda Black saying the latest woman involved with Gosen was a friend of hers. That statement confirmed information I earlier learned from a reliable source.

We were also told by two independent sources that there was a video of Gosen having sex inside the capital.

Now things get interesting. The newest girlfriend who reportedly believed Gosen was divorced was talking marriage with Gosen. She believed that he agreed to a destination wedding in an exotic location. When she pushed Gosen for a wedding date so she could get invitations printed and mailed to friends he had problems. At that point my main source claims Gosen broke off the relationship.

That did not end things. The girlfriend want to get back with Gosen and drove to his house which has the address listed on several websites connected with him being a state rep. The story goes she was wearing some sexy boots, an overcoat and nothing else when she rang the doorbell only to be greeted by Mrs. Gosen.

The Gosen house on Clayton Road.

Needless to say things went down from there. Both of my sources tell me that the girlfriend then went to the publisher of an internet news website dealing with the Missouri politics in Jefferson City. She reportedly took with her the sex texts and the sex video.

The Speaker of House was then contacted and the deal was made that the material would not be released if Gosen immediately resigned. The resignation was just that "IMMEDIATE" with no details as to why he resigned.

The question we have to ask are what World has Gosen been living in? Did he believe that sex texting someone he was having an extra martial affair with would not come out? He apparently was unaware of or certain nothing would befall him as did the following politicians:

- 1) Anthony Weiner (Dem NY) whose sex texts were revealed shortly after he married an aide to then Secretary of State Hillary Clinton. Weiner denied the texts of his penis were from him and claimed his cell phone had been hacked, before admitting sending the texts. He was forced to resign from the United States Congress.
- 2) Missouri Speaker of House John Diehl who lives on Clayton Road in Town and Country east of Gosen was forced to resign two days before before the end of the 2015 legislative session in May after a teenage college intern who he had been sex texting gave the texts to the Kansas City Star. Reading the texts it appeared as if the two were having an affair. A month later a Jefferson City police from 2015 revealed Republican Diehl was having an affair with a staff member of Democratic Gov. Jay Nixon in 2014. In 2015 she went to Diehl's Jefferson City apartment drunk thinking she had been sexual assaulted. She told police of the affair with Diehl as the reason she went to his apartment for help.

3) Two months later Missouri Democratic Senator Paul Levota was forced to resign after complaints were confirmed by several woman of him sexually harassing college interns.

Apparently Don Gosen thought none of this could ever happen to him.

No divorce papers have been filed at this time.

While Diehl represented Frontenac, Town and Country and the eastern part of Chesterfield, Gosen represented parts of Ellisville, Ballwin, Clarkson Valley, Wildwood and Chesterfield. Over the years we have tracked large amounts of money contributed to Gosen from the insurance industry apparently to back legislation that favored the insurance industry and not policy holders.

We hear there has been a number of names mentioned interested in running for Gosen's seat. One of them is Chesterfield Ward-4 Councilman Bruce DeGroot.
